Professional Experience and Curriculum Vitae

Greetings

If you're looking for that retro airbrushed style look no further than this page. I've been working as an Illustrator for over 30 years, 10 of which was as a traditional airbrush artist. I've transferred that skill over to the digital realm and added a few new touches along the way. I've worked with a number of clients in various media disciplines from POP to magazine to Print Ads. I've also Art Directed at BladeCreativeBranding in Toronto for 3 years. I also work in the Animation business as a Background, Layout/Concept Artist. With my broad scope of experience I believe I can offer a wide variety of options for you to get the a finished piece of art that's above your expectations. I hope you enjoy the work and I look forward to hearing from you in the near future.

Cheers

Gary C
