Professional Experience and Curriculum Vitae

Internet Exposure is a full service web design and development agency based in Downtown Minneapolis, Minnesota. Their team consists of passionate, creative professionals with a drive to deliver a stunning product that sells. The agency was established in 1995 and, since then, has grown with the trends of the industry and developed into a hugely knowledgeable team of web design, development and online marketing professionals.

WONDER TWIN POWERS: ACTIVATE

Custom Web Application Development

Internet Exposure has been creating custom web applications in Minneapolis for over 20 years. From microsites announcing the latest products to complex, data-driven web applications - we've brought to life over 750 projects. We start by listening—we match your industry knowledge with our technical web design, development and marketing skills to produce effective, measurable outcomes.

WE'VE GOT GAME

Gamification Made Easy

Many companies are applying game tactics to everyday corporate activities like product training and employee reward systems. Over the years, Internet Exposure has created a wide variety of gamification-centered projects from mini puzzle games to interactive microsites. We'd love to talk about your new idea or show you our collection of past projects.

THE AUTHENTICITY IS REAL

Rock Your Reputation

Customers believe in you in real life- make sure that is reflected online with your web application and your web site. We have the skills necessary to design and build a wide range of web applications, with the right tools to support your project well into the future. Our client's confidence in our work is our number one priority.
