Professional Experience and Curriculum Vitae

I make worlds. I design art and fractals along specific themes, worlds that pull in the eye and leave the mind asking questions -- those are the worlds I create; where mystery and the enigma hold power, where symbols define the lines that the colors follow. Ex nihilo, ad infinitum.

My art ranges from large scale fractal murals to covers of music albums and books. My largest mural is the "Heart of the Rose" fractal (ACCOR / Sofitel) that divides the resort between natural art and modern art. It is a 5m x 3m (16ft x 10ft) mural that covers the walls of the entire corridor. Photos from the corridor are online here.

My fractal art appears on the books "The Manifestation of Hidden Forces", "Where Rainbows Hide", "Days and Times of Power", and many more.

Additional artwork can be found online:
