Professional Experience and Curriculum Vitae
I love all aspects of the still image, that moment in time captured forever, in that very instant!

All my experience is brought to each shoot, mixed with my enthusiasm and passion, you can be sure the results will set your project imagery above the rest…Fashion, Products, Beauty, Events, Behind The Scenes, Headshots, Corporate, whatever your needs, we can give you outstanding results.

My passion for photography and the arts stems from my father, who has been taking photos for over 60 years! https://www.instagram.com/jayartphotographer

I can also combine stills and video, check out my Video Page, to produce uniquely stylish imagery for all media content.

Proud Brit living between the UK & America…
