Professional Experience and Curriculum Vitae

My name is Joseph Barbaccia. I live in the Washington DC metro area. I was raised in Philadelphia, PA, and attended Tyler School of Art. I have 35 years of experience in Graphic Design. Which gives me the ability to anticipate the needs of graphic designers and art directors. I speak your language. My illustration work is created with polymer clay and is three dimensional in form. Similar to a bas relief. I do my own photography and can produce any type of high quality file format, (pdf, Photoshop, tiff, jpg, etc.) that is required.

My years in the design industry helped me understand that successful illustration is one half inspiration and one half collaboration. And that working with other professional creatives can make assignments even that much more rewarding.

I'm confident that my ability to meet deadlines and my exceptional illustration style have the potential to produce award winning works. Contact me if you're looking for someone who can get the work to you on time, in budget and in the style you expect.

I'm a member of The Illustrators Club of Washington DC, Association of Illustrators, and The International Polymer Clay Association.
