## Professional Experience and Curriculum Vitae

Hello! I'm an ambitious freelance photographer and creative individual from Liverpool currently residing in Lincoln where I have studied Contemporary Lens Media, achieved my degree and contribute to The Focus Project.

My engrossment in photography stemmed from my studies and interest in Art and Design, in which I was influenced from movements such as impressionism, cubism and surrealism. My initial influences in photography included the likes of the bauhaus, russian constructivism and has expanded throughout my my studies into the areas of the tableau image, art direction, documentary, lifestyle photography, street and still life photography.

My current work if focused on the Tableau, exploring the dynamics of relationships in narrative, staged still images, recently taking inspiration from Edward Hopper, Helen Van Meene, Sarah Small, Paula Rego and Hannah Starkey.

I have always had a keen interest in all aspects of the creative industry and now intend to continue my route further into the realm of fine art photography.

I am available as a wedding and portrait photographer, open to collaboration projects and discussions, keen to expand my portfolio, explore all aspects of photography and on the look out for gallery space.
