Awards and Accolades

Sprocket DC has been shortlisted for Creative Business of the Year in the 2011 Lancashire Business View Red Rose Awards. The award ceremony will be held on 31st March at the Winter Gardens in Blackpool.

Sprocket DC was briefed to produce an engineering piece for an exhibition Trio Motion was attending in Germany. After an initial meeting, Jenny sent drawings that matched what we required. From these drawings to the final product took only a month, which fitted Trio's tight deadline. Many thanks Jenny for the hard work above and beyond the call of duty. Your input made the exhibition a great success for Trio.

Mark Kennelly – Media Manager – Trio Motion Control

Following recommendation, we approached Sprocket DC to re-design the end plate of a

WWW.THECREATIVEFINDER.COM styled engine block' that we are using in a piece of 3D design art. After only a short briefing session, Sprocket DC completed the re-design to
