Professional Experience and Curriculum Vitae

JeremyHARRIS started his illustrious career over a decade and a half ago in the city with which he left his heart, San Francisco. The thriving rock “n”roll scene was where he found his first subjects. Shooting band portraits and live shows on the cheap or for BEER, a small portfolio was built up and
eventually Jeremy’s images caught the attention of some of the world’s most famous music magazines. His interest in architecture, interior design, mid-century furniture, bicycling, and the outdoors led him to branch out and build relationships with a variety of magazines, design firms, agencies, and corporate clients. Many of which he still works with today. Jeremy’s beautifully lit and expertly composed images, are award winning and have
been shown in art spaces all over the country. He was recently featured in the book TAKE YOUR BEST SHOT: Essential Tips & Tricks For Shooting Amazing Photos, published by Popular Photography magazine.
Jeremy currently resides is a semi-haunted (by friendly ghosts) rustic brownstone in Crown Heights Brooklyn with his two cats, Delilah and Jezebel. When not on assignment, he enjoys traveling, exploring abandoned buildings, a shot of Jameson with an iced cold beer, getting yet
another tattoo, riding his bike, eating fish tacos, and generally just enjoying his life to the fullest.
