Professional Experience and Curriculum Vitae
I am an Australian graphic designer, onto my 4th year of a Bachelor in New Media Arts. I have always loved making things look extra special, from "correctly" formatting Word documents to designing my own birthday invitations. My design motto is 'Keep it simple!' and everything I create is always fresh, interesting and unique. I would love be on the design team for a cool arty magazine someday :)
I am a mother to a gorgeous little boy, and he is one of my inspirations. Other things that inspire me are bright colours, big cities, rainy weather and all kinds of music.

Follow me on Twitter and Like my Facebook page! Cheers :)

Previous Clientele
The Obsidian Complex (Band/Musician)
David Taylor Spraypainting and Panel Beating
Various party invitation requests
