Professional Experience and Curriculum Vitae

I hand paint on cibachrome prints, making unique on of a kind images.
I also then scan the art & enhance in photoshop, printing on gorgeous archival papers....I saturate my images with vivid colors, intensifying the emotion & adding another layer of creativity on top of my original photographs.
My goal as an artist is to create classic beautiful pictures that go well beyond tradition & express a new intriguing reality.

Previous Clientele

I have been selling my art all over the world for almost 3 decades....I am collected in 1/2 dozen museums, the Brookings Institute, some big corps, hospitals in Los Angeles, private collectors & public collections in the US & Europe, etc.
