Professional Experience and Curriculum Vitae
JK Studios Ltd is an award winning creative studio, producing 3D Animation, Visual Effects (VFX), Video and Digital Content for a variety of media - including TV, Video Games, Marketing and the Web.

Working as the creative driving force behind all projects, the studio is run by James Kearsley.

I started working freelance in 2004 and established my own company in 2010. Since then i've had the pleasure of working with some great clients on amazing projects over the years, including CBBC, Codemasters, Virgin and Sega to name a few.

During my time on these projects, i've worked as a 2D/3D animator, Modeller, Compositor, game engine animator & VFX artist, Concept Artist, Editor, Web Designer, VFX Supervisor and Art Director (phew!) – each time with the same high emphasis on creativity and quality, adhering to tight deadlines and always delivering on time, within budget.

I've always taken a hands-on approach, dealing with all aspects of design, production and creative direction where necessary, giving me the ability to see a project from many angles. Applying this experience to a clients project, it means I can take a multi-media approach when it comes to each individual brief, then scale a production team in order to fit the brief. This allows an unrestricted approach to come up with creative ideas outside of the box – and the chance for us to flex our creative muscle and bring your vision to life in the most effective way.

But don't just take our word for it – have a look at some of the projects JK Studios have undertaken in the past, together with testimonials below.

Please feel free to get in touch via Email, Phone or Skype – or we can arrange a meeting and i'll pop the kettle on. You can find all the contact details you'll need here.

Previous Clientele
CBeebies, Sega, BBC, Virgin, Codemasters, Garmin, NaturalMotion, Nature, Partizan, Mainframe, Surface

Testimonials:

Computer Arts Magazine Issue 171, February 2010:
"This reel by JK Studios demonstrates the kind of refinement that comes after many years experience in the motion graphics and animation profession."

Carrie Patsalis – Director, Mad Cat Media Ltd.
"James is one super smart guy who's extraordinarily creative. Easy to work with and fantastic to bounce ideas off, I can't recommend him more. He makes the impossible, possible."

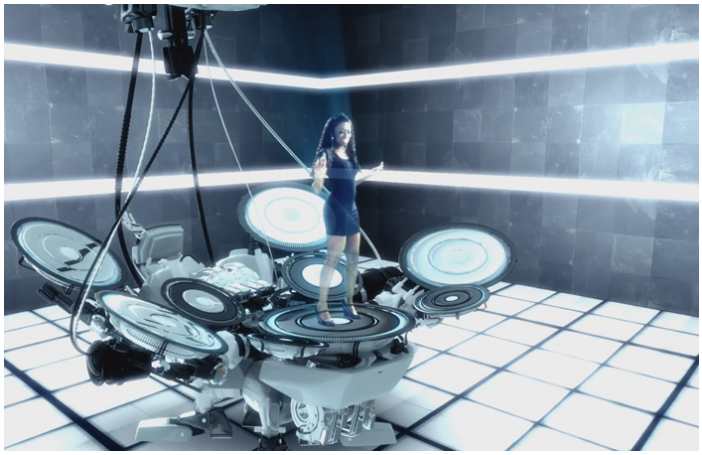

Lee Roberston – Director, Solaris Media Ltd: "Laser focussed and totally perfectionist whilst not letting deadlines escape his grip! Totally trustworthy, reliable with an extremely clear grasp of logistic limitations and how it affects the deadlines he is invovled with. You can't hire better!"
