## Professional Experience and Curriculum Vitae

Jessica L. Polizzi...The granddaughter of a Master Carpenter, Jessica fell in love with the process of creating, developing and accessorizing interior spaces at a young age. She later put those skills to work when she joined Bob Altavilla Interiors in 2006. Working side by side with Bob, she saw how structures come together and how the spaces within them come to life. As the new principle of the firm she continues to dedicate herself to the vision Bob had over 25 years ago while further establishing her own unique position in the interior design community.
