Professional Experience and Curriculum Vitae
JLP is John Loomis Photography, provider of fine visual services crafted on location or in studio anywhere. JLP is based in Washington D.C. and New York City, with special availability in south Florida. Loomis is best known for energetic and creative portraiture and his passion for story telling inspired from a background in photojournalism. John was born in Miami, raised first on an alfalfa farm in rural Georgia then college football-obsessed, Spanish moss-covered Tallahassee before heading to college in the midwest. He takes his coffee black, his women Polish and his pictures without a tripod (for the most part).

Previous Clientele
