Professional Experience and Curriculum Vitae

Art has always been in the forefront of my life. Throughout my childhood, I experienced painting lessons and access to ways of expressing myself. I was bilingual at an early age and have used language as a tool to my narrative. I don't want to label myself as an illustrator or as a designer. If I absolutely need a label it has to read: CREATIVE.

Previous Clientele

I am Brazilian and moved to London last year to continue my studies after graduating in Visual Communication at Puc-Rio. In my hometown of Rio de Janeiro I worked as an accessories designer at Thy and later as a fashion designer for Segmentum Imp. Exp. I also did some commissioned work for Renner as a fashion illustrator.

Awards and Accolades
