Professional Experience and Curriculum Vitae

Jeff Shaffer's advertising photography has garnered numerous awards from art director's clubs and other publication design groups. Based in Philadelphia, he has worked on national ad campaigns and annual reports for such prominent clients as Pfizer, Neiman Marcus, Ralph Lauren, Tanqueray, and Heineken. Jeff's fine-art photography draws its inspiration from futuristic cinema and graphic novels, relying heavily on post-production manipulation in the style of computer graphics. He refined those skills while earning his Master of Professional Studies in Digital Photography degree from New York's prestigious School of Visual Arts.
