Professional Experience and Curriculum Vitae

Karole began creating art at a very young age, before she could even walk! Her influences include Keith Haring, Jackson Pollack, Mark Rothko and her work in the interior design field. Her current collection combines her love of stripes and a celebration of color. Her art is presented on reclaimed wood remnants (a junk-picker from way back) and left-over house paint which provides unique depth and inspiration for each piece as well as making it affordable for all. Pieces vary from 6X6" and larger. Commissioned pieces are welcome.

"Art and color feed my soul; it is a necessary joy that I practice daily. I am grateful that this collection can be enjoyed by anyone who appreciates color and the happiness it brings." - Karole Moe

Karole has a BFA in graphic design and illustration and is an interior designer at Mohr-McPherson in Boston Mass.
