Professional Experience and Curriculum Vitae

After spending the best part of my 20's traveling the world I have finally come to settle down into the wonderful world of design.

I spent many years traveling and working as a Scuba Diving Instructor in some of the most beautiful places on earth. This is where my passion for photography grew. I have taken thousands of underwater photographs from the tiny Pygmy Seahorse to the great Whale Shark. I expanded my photography to the surface and have a large collection of photographs from around the world from Central America to Africa to Indonesia. I now live in the UK and have turned my passionate hobby into a career as a designer and photographer. I am currently studying for a degree in design for publishing at Norwich University College of the Arts.
