Professional Experience and Curriculum Vitae

I am currently pursuing my bachelor's degree at DeVry University in Multimedia Design and Development with a specialization in Graphics and Multimedia Design.

I have decided to turn my passion for creativity into a career and would like to land a job as a Web Graphic Designer after graduation . I thrive on planning, analyzing and creating visual solutions for a variety of projects. I feel that I can assist companies and organizations create the overall look and feel for various media elements that would be needed to promote their products and services.
