Personal Profile

A highly motivated & professional individual, I have a positive approach to responsibility, embracing change & responding swiftly to it. I possess great interpersonal skills and demonstrate effective communicative ability. I can adapt quickly to any role, working well as part of a team, or taking the initiative to lead one. I am loyal & compassionate & strive to give my best performance in every situation.

Career Summary

KC-Imaging- Business Owner & Manager.(2003-)
Running a small & successful operation that offers Photography, Videography & Design services. As a Sole Trader, I occasionally employ a small team of Photographers & Assistants to undertake any large events. I have responsibility for their training, management and that any necessary Insurance or Health & Safety issues are taken care of. Liaising with my accountant, I also ensure that their tax obligations are met. Having undertaken work with clients such as The Open University & The NCH, I have demonstrated professionalism to provide an outcome of a high standard, ensuring that the client is delighted by the experience, and have many returning customers as a result.
Providing services for a local Charity is the companies main focus, undertaking 50+ jobs per year on their behalf. These include family portraits & portraiture with my portable studio in the homes of severely disabled or terminally ill children, covering events such as parties, christenings or events. When met with such delicate subjects, compassion & patience is an absolute must, & I pride myself on my ability to create a calm & relaxed environment

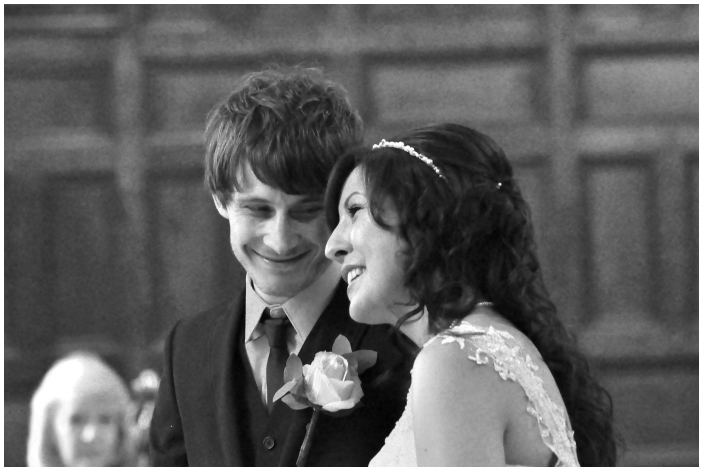

15b Lloyd Road Singapore 239098 (co. reg. 201004598d)
portraiture & art 2002 portable studio
