Professional Experience and Curriculum Vitae

Well, long story short... I have been painting for a long time and I mainly paint people. The people in my painting are usually based on real people that I may have ran into through the day or based upon people I know.

I also write and most of paintings don't go anywhere without some kind of story to go along with it.

My work has been used in both print and web publications (too many to list here). I have participated in both group and solo shows (also, too many to list here).

My artwork currently resides in collections in the US, Canada, United Kingdom, Austria, Germany, France, Italy, Brazil, Belgium, Switzerland, Spain, China, New Zealand, Australia, Argentina, Denmark, Mexico, Puerto Rico, Romania, Greece, Guatemala, Norway, Portugal, Luxembourg and South Korea.
