Professional Experience and Curriculum Vitae

I am a professional artist with well over fourteen years of experience. Originally from South Africa I now live in Kent, in the UK, with my lovely wife and our two awesome boys.

I am the creator of The Sun newspaper's 'Shadows' comic, which was published in the newspaper, every Monday to Friday, for three years. I was entirely responsible for the comic, from the writing of the story to the production of the artwork.

Over the course of my career I have been fortunate enough to work in many various creative fields, from computer games and animation to 3d comics and graphic design. I was lead texture artist on an xbox released game and have completed work for The Sun newspaper, BBC2 and many clients world wide.

In 2012 I set up my own company, KFR Creative Ltd, in order to develop my own personal projects. In development currently are ideas and concepts for brand and art licensing, with my character 'Dude Zombie' (of which I own the trademark) at the forefront.
