Professional Experience and Curriculum Vitae

I'm Kent. I love my family, coffee, whiskey, mountain biking and gear.

I've been professionally shooting since I was 22! I'm happy to be able to call NYC my home since 1989. Back then we had film. All kinds of film. I didn't take the normal route and get the camera my dad handed down. I was a bored musician inspired by the people around me. I picked up a camera and started photographing. That started the madness that grew into a lifetime passion. Since that point, I've met some really cool people, worked for amazing clients, and have had the opportunity to collaborate creatively with commercial clients. I am blessed to be able to call this passion of mine a job. I push the limits, learn something new every day, and use my inspiration to create something that promotes my clients' brand.

Let's meet up or you can quietly follow me on social to see some of the projects and clients I'm getting creative with.

Previous Clientele
