Professional Experience and Curriculum Vitae

I have always felt like I see things in a different way than others but I'm sure all artists say the same thing. I've always loved everything art. I paint, sculpt, draw, anything really. but photography is my passion. I love to take plain simple things you'd never look at twice and find the true beauty in it and help you to see it as well. Through my eyes I see a whole other world and with my camera I can help you see it to.

Previous Clientele

Please kindly get in touch for more information.

Awards and Accolades

Please kindly get in touch for more information.

Awards and Accolades

I was awarded, but sadly turned down, a scholarship for photography.

I have won several awards at the local art fair my town has every year for my sculpture and paintings.
