Professional Experience and Curriculum Vitae
My expertise lies in intelligent illustration and elegant graphic design with focus on brand-identity. My work possesses the warmth and personality of handmade elements and is informed by a proficiency in Adobe Creative Suite. I work independently, but make an excellent team player with my easy-going, hard-working nature and my clear, diplomatic communication style.

As an illustrator, I have a penchant for that analog medium of paper, and my signature style involves richly textured, colorful collage. However, I am a versatile artist, and like most commercial creatives I am also adept at Adobe Photoshop and Illustrator. While I have made images for a range of industries, including health, food, and the performing arts, my favorite field is the children's market. I am currently illustrating my first picture book for Lee & Low. When I am not picture-making for kids, I am creating images for websites, business presentations, greeting cards, and editorials, to name a few assignments.

My graphic design experience comes into play as I unite illustrations with copy to create clear design for web pages, signage, stationery, and other collateral—including a tent in one assignment. Often I am asked to design or redesign a logo, which will serve as a springboard for that company's whole visual language. Because I take the job from concept through to print, I am adept in production: building mechanicals in InDesign, retouching images in Photoshop, creating mock-ups, and more.

June 20, 2015

Dear Jennifer,

Tomorrow we will be celebrating two events. The first, and most important, is Father's Day. This celebration of all things paternal is most often affiliated with summer outdoor activities and the gifting of really awful neckties. Put a lot of thought into that tie selection and wish dad a Happy Father's Day for all of us.

Happy Birthday to Us!

Our second celebration is a bit more introspective. June 21st marks the 3rd anniversary of Friends & Farms. It's hard to believe that it was three years ago that the first 24 customers showed up to meet our truck in the parking lot of Earth Treks. We want to thank you, and those early F&F pioneers, for making us what we are today. Without you, we would simply not be here. Thanks!

Countdown to the Fourth of July

We are putting together a picnic friendly basket loaded with chicken for the fryer and sausages for the grill. If your meal plans are more expansive than that, no problem. We can fill any of your custom meat and seafood needs with sufficient warning. To place a customer order, send us an email at customer_service@friendsandfarms.com. F&F also has pre-planned meal kits to help ease the pain of entertaining! Just let us know your desires by Sunday, June 28th at 10 pm. If someone else is doing the entertaining and you'll be away, we will need to know your vacation plans by the same deadline.

Give Us a try

If you are not already an F&F subscriber and are looking to give us a try, you can always make a single basket purchase on our Square Marketplace. Our full line up of baskets is available for purchase at any time and they are a great option for folks who are occasional cooks or frequent travelers. Not interested in a full week's share, our Square market also has great meal kits such as our classic Low Country Boil and the fan favorite grill pack (add links).

Enjoy the weekend!

Tim & Philip
