Professional Experience and Curriculum Vitae
I love paradox of contrast and finding harmony in it, even though they don't seem like they go together, somehow they can fit together perfectly, creating something amazingly harmonious. It is like the combination of different extremes- male and female, earth and sky, water and fire, motion and stillness… I love combining two paradoxes into one perfect thing. My life has been a journey of searching two means and creating one thing out of it, and I try to reflect that in my design as well.

Previous Clientele
Warner Brothers, The CW Television Network, E! Entertainment, Paramount Pictures, Hewlett-Packard, Nokia
