Professional Experience and Curriculum Vitae
Kremer Johnson = Neil Kremer + Cory Johnson.
We are a photography team specializing in character-based & narrative-driven environmental and studio portraiture. Our images are both stylized and authentic, showcasing our subjects in engaging & impactful ways.

True collaborators at heart, we formed Kremer Johnson Photography to explore our combined creative vision. We share in all duties from ideation & pre-production through shooting & post. Together we create images for editorial, corporate, and advertising clients nationwide.

Cory grew up in a small town in Iowa, while Neil came up in Rochester, NY. We both now live at the beach in Los Angeles. People say they can see the best of each of those places in our personalities and our work.
