Professional Experience and Curriculum Vitae

Hello and thank you for viewing my work.

As a freelance artist who loves my job I am happy to offer you my services with storyboards, illustrations, comps, logo designs, concept art, paintings, and more.

With more than a decade's experience, I enjoy visually actualizing a client's ideas into successful compositions. From controlling the direction of eye movement, establishing a mood, readable body language, and believable environments I create visual stories and generate audience involvement.

Perhaps the most important element of my job is listening. Through our projects I will funnel your goals into visual summaries by hearing just what it is that you would like to see, even and especially if you aren't sure at the moment. With so much visual stimulus in our world I look forward to specifying what emotions, conditions, and impressions you want your audience to feel.

With illustration work I typically finish most projects within a few days, including meetings. I am used to deadlines and I know how important schedules are with production, printing, and advertising. Please feel to call or email if you have any questions or comments; I enjoy meeting new people and also give consultations by phone and email.
