HOW TO GET YOUR BOND

9 TIPS
ON END OF LEASE CLEANING

Take pictures

Make sure you back yourself up by taking pictures of the original condition of the place you are moving into.

Clean like just moved in

Clean all rooms, furniture and equipment so that they look as if you just moved in. Remember, that will take more than 10 minutes!

Invite your landlord

Ask your landlord to come by 1 month before you leave. Let him point out what he is not happy with and you will be able to make it right. Make sure there is a witness present to the meeting.

Party somewhere else

As much as you love to party, keep that away from your place. It's not worth to put at risk your deposit because of extreme damages.

Double-check your contract

Don't overlook your contract! See the requirements and make sure you have fulfilled what is expected from you.

Ask for a side opinion

Although, you may think you have done a terrific job, do ask a friend to visit your place, inspect it thoroughly and let him speak.

Empty the bins

Before you go, don't forget to empty the bins. Remember that your landlord may take advantage of any critical errors and charge you!

Be a pedant

Even if you are not, try to be! The more time and effort, the closer you will get to your bond.

Stay persistent

In case, your landlord is not an easy person to get along, don't lose faith! Be persistent and convince him with all the proofs you have that you are right!
