Professional Experience and Curriculum Vitae
Profile

Krovblit. It's my name and my brand.

I say 'my brand' because I invest myself fully into all of my work, whether it's big international campaigns, independent clients or collaborating on personal creatives. I'm passionate behind the camera whether I'm shooting or directing, working in motion or stills. I'm agile and enthusiastic, I'm in my element and always hungry for the next project.

I love what I do and thrive on being up against deadlines. As a matter of fact, I work extremely well under tight deadlines. I take my work very seriously and it is my mission to provide each client with something that not only satisfies the strategy but brings something more to the project.

That's me, Krovblit.
Feel free to call me Dave
