## Professional Experience and Curriculum Vitae

Graphicairlines, established in 2002. We are a creative team of 2 members. We are currently active in the areas of graphics, illustrations, characters, CD jacket and websites design .

We think create is just like flying in the sky. Nothing can be compared with the freedom and happiness that we get from creating.

We love street arts, stickers and T-shirt designs. We make our own dolls and figures. Now we are drawing the stories about our charachers. We also draw on caps, umbrellas, guitars, skateboards, cup and anything that can be draw. Everything can be our canvas.

We aim to share our works from this site. We know our works can have more improvement, but I hope you will like them. We'll try harder to do something better. Please give us any comments no matter good or bad.

Check out from this site for our works!

Enjoy the voyage!!
