Professional Experience and Curriculum Vitae

Communication through images and words is my attitude. I love work for advertising, photography, arts and packaging. I worked in the past both in multimedia field and publishing industry. I design logo, web sites layouts and multimedia interfaces, console, magazine, advertising and packaging. I know photo-retouching technique and vector drawing. I'm wideing my knowledges in comic arts in particular in digital colouring, hoping that it could be in future my new working field. I'm an accurate worker and always on time with customer deadline.

I'd like to be involved in publishing project for educational, art, photography books and have the opportunity to work more in publishing and advertising industry.
