Professional Experience and Curriculum Vitae

Established in 2011, Lascivious Grace...the birth child of Eric and Mercedes has finally taken off!!!!

We start with a design from deep within the recesses of our noggins...lol..Thereafter place it on virtual paper...otherwise Illustrator..lol..and we're off to screen-printing!!! Some we tie dye...nooooo not Jerry Garcia Grateful Dead Type but actual cool tie dye effects!

We're always coming up with something new in our underground LABORATORY!!!! No not really...Our workshop...Hey! Every mad scientist needs a lab...at least an imaginary one! So sit back and watch each unique creation come to life and if you're so inclined, why not BUY ONE!
