Professional Experience and Curriculum Vitae

For over ten years, clients throughout the country have warmly responded to Laura's collaborative work process and her knack for uncovering effective design strategies. Her success is witnessed in the oversight of several nationwide biomedical marketing campaigns and public health websites, high-profile graphic design print advertisements, and the creation of corporate identities for a number of New England arts organizations.

Laura's experience working in both artistic and corporate fields has led to comprehensive skill sets in both web and print design. Essentially, Laura is a designer whose fresh, spirited vision and technical expertise are reflected in her love for a business which is also her craft.

When she's not designing, you can sometimes catch her in a show at the critically-acclaimed playhouse 2nd Story Theatre in Warren, Rhode Island.
