Professional Experience and Curriculum Vitae

For over ten years, clients throughout the country have warmly responded to Laura's collaborative work process and her knack for uncovering effective design strategies. Her success is witnessed in the oversight of several nationwide biomedical marketing campaigns and public health websites, high-profile graphic design print advertisements, and the creation of corporate identities for a number of New England arts organizations.

Laura's experience working in both artistic and corporate fields has led to comprehensive skill sets in both web and print design. Essentially, Laura is a designer whose fresh, spirited vision and technical expertise are reflected in her love for a business which is also her craft.

When she's not designing, you can sometimes catch her in a show at the critically-acclaimed playhouse 2nd Story Theatre in Warren, Rhode Island.

Train hard.
Come often.

why are they better?

- 1 The workouts are more efficient (more calories burned than with other types of workouts)
- 2 They burn fat and help reduce cellulite
- 3 They strengthen core musculature and build dynamic and functional strength
- 4 They're a great combination of strength and cardio training
- 5 Your balance, agility, speed and endurance will be increased
- 6 The workouts are always different
- 7 You'll develop a better sense of your body in space (known as proprioception)

where is it located?

The Kettlebells workout pad is located at:
530 Wellington Avenue, 3rd Floor
Cranston, RI 02910

Studio Hop

In 2000 we began sharing our love for fine art, fine hand crafts and vintage furniture and jewelry, carrying authentic work by primarily local artists and artists from around the globe. Along with the contemporary artwork, jewelry, photographs, glass, ceramics, wood, metal, and textiles, we strive to find unique and unusual period pieces of furniture and jewelry from Victorian to Mid-Century Modern.
