Professional Experience and Curriculum Vitae
I am a lifestyle and sports photographer based in New York. I strive to create unique iconic imagery which incorporates strong use of color and graphic elements. My lifestyle and sports work are both based on the beauty of real active people and natural movement rather than stiff poses. I always work with a team of experienced people to make sure even the most challenging productions come off without a hitch. I studied at Brown University and RISD and have lived in NY for 12 years.
