Professional Experience and Curriculum Vitae

My work consists of a modern style of painting, from lines and circles to stencils and mosaic, from wall mounted images to tables and doors - all on glass and all in amazing colour combinations and interesting techniques. I am keenly interested about the light and how it will shine through the glass and how the shadows will fall, bringing with them a hint of colour or pattern from the art.

I am passionate about my work and a perfectionist about my style. I am always looking for new ideas and techniques and have vision for the interesting and unique.

Where there is glass - there is always light, inspiration and possibility!!!
