## Professional Experience and Curriculum Vitae

My name is Bence Locsei, I'm a freelance graphic designer currently seated in Sopron and Budapest, in Hungary. Having gathered profound experience as employee or business affiliate to several great agencies for the last 8 years, my main profile turned out to be the graphic design of above-average websites as unique print designs and corporate identities. As a freelancer I had the chance to design and execute work for a vast amount of smaller companies (native as offshore) as well as for several multi-national clients like ComedyCentral, Aegon, Axa, Sony and the European Youth Card Association. With three fluent spoken languages (German, English, Hungarian) my clients these days are companies from all over Europe and the United States with a need for unique, quality designs.

## Previous Clientele

Comedy Central, Axa, Aegon, Nike, EYCA, Honda, etc.
