Previous Clientele

"Ram has tremendous creative skills. His strong command of English quickly enabled him to fully appreciate what I required. After clarifying the brief Ram responded in an amazingly fast timescale. I have to say that I was astonished to see that the logo concept he had developed totally encompassed all of the elements identified in the project brief. A first class job - well done and thanks. I do hope that we can work together in the future."

RJ PLus

"Ram was great. He was prompt even when I sent him a message in the middle of the night (I forgot he lives half a world away). He also took my thoughts and put them into a logo perfectly. I will work with him again and will refer him to others."

OBJECTIVE

I am a creative type with a flair for designing. I designed my first website when I was 15 www.electroskan.com. The site is no longer active but whatever I have learned while designing that site has stayed with me. I started designing logos, corporate identities at a professional level about 5 years ago and needless to say it has taught me to say the story of a company through a 250x250px image.

I am looking for a creative position in an organization where I can use my skills to the advantage of the organization while improving the same.
