Professional Experience and Curriculum Vitae

I am Jose Lopez an experienced Art Director specialized in managing successful projects.

I was born in Spain, but I spend my childhood between Switzerland and Spain. Thanks to these two cultures and educations, I have a good balance between coming up with superb concepts and managing projects with accuracy.

During my professional career of over 15 years, I´ve worked in both the public and private sector and performed a wide-range of problem solving, from visual design to information architecture and Elearning.

As an Art Director and founder of the visual studio LopezMarcos Design, I´ve directed social media campaigns for European Union governmental organizations , Spanish government, Community of Madrid government, the spanish social organizations FMFCE, ASAJA and AFAMER and the universities and foundations CUNEF, universidad autónoma de Madrid, universidad complutense de Madrid, etc…

Above all I love to draw, paint, illustrate, design, develop … I LOVE TO CREATE

Besides creating, my other great passion is travel, travel allows me to meet people, experience different cultures and amazing places. I find it very exciting to speak with people from other places and to exchange ideas and habits. Together with my wife we have traveled through the five continents, we are just lacking to visit the grand sixth continent “The Antarctic”, I´m sure someday we´ll achieve it.

And finally, I feel it´s very important to stay healthy for both the mind and the body. So, I´ve been practicing Judo for 20 years, I have obtain 2nd DAN black belt and I´m member of the Spanish Federation of Judo.

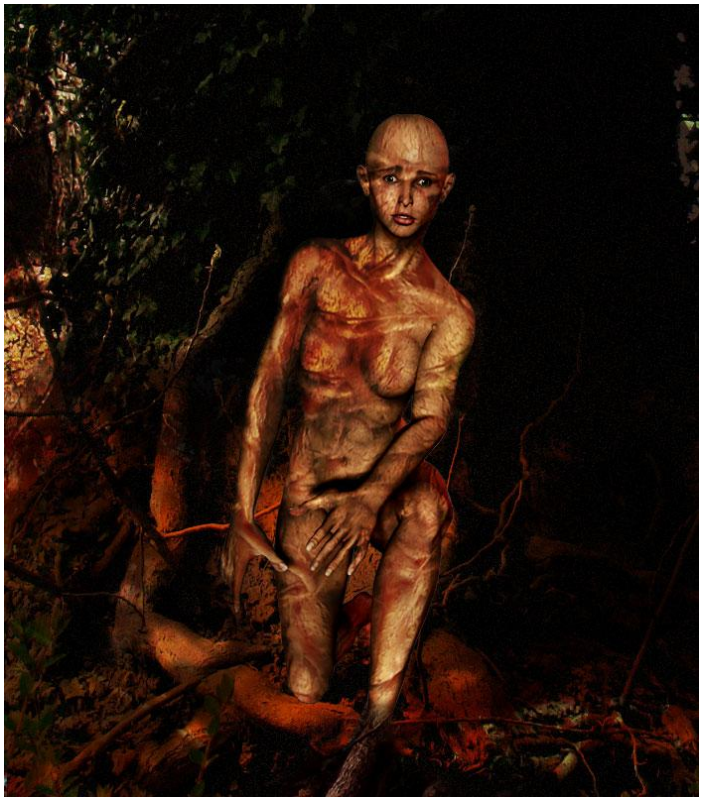

Previous Clientele
Spanish Government
European Union
Tripartite Foundation of Metal
University Center of Financial Studies CUNEF
Autonoma University of Madrid

Awards and Accolades
I´d like to introduce myself.
