Professional Experience and Curriculum Vitae

Original artwork that reflects your unique vision.

I'm a freelance graphic designer living Durango Colorado and have owned and operated my own business for over 4 years and have worked in the print and design industry for over 10 years.

The laundry list of experience: logo, brand development, stationary, brochure, rack cards, trade show design, flyer, annual report, calendar, invitation, greeting cards, point of sale, package design, billboard, signs, custom graphics, photo restoration, business card letterhead, direct mail, illustration, corporate identity, T-shirt, book design and layout, catalog, print advertisement, stock photography, vector conversion, stencil, map design, decal, poster, magazine, photo editing, website art direction.... and I'm always looking for opportunities to work in different media. I honestly don't have a favorite category. I love designing and meeting the creative needs of my clients.
