Professional Experience and Curriculum Vitae
Hi! My name is Lucia. I am Argentinean and currently based in Santiago, Chile.
I am a professional photographer, graduated from Queensland College o Art (Griffith University, Australia) from Bachelor of Photography with mayor in Creative Advertising.

I enjoy myself a lot being able to play with light within the studio, and my subjects can go from persons, animals and objects to the nonexistent.

When it comes to my personal work I tend to go towards the surreal. I love the fact that photography plays within the edge of the objective and subjective, presenting an image that it is unconsciously taken by the viewer as something "real" but it is not only subjective from the photographers point of view, but it can be fully recreated, leaving the most minimal link to some sort of reality.

And, at the end of the day.. What is really "real" anyway?

Previous Clientele
Live Image (Griffith University, Australia), Dafiti.cl (Chile), 3M (Chile), etc
