Professional Experience and Curriculum Vitae

I go by Lulu. I'm what people call one of the rare LA natives (we're not so rare). The beach is my sanctuary. Owls are a reoccurring symbol in my life which has now found it's way into my artwork. I've painted since I was just a little squirt. I love to dress up in costumes. I have a passion for arts education. Theater is my therapy. I design, build and paint sets. As long as my hands are creating something I am happy.
