Most people do not know that May Ann was born with a hearing deficiency in 1981. But now, she can hear, talk, sing and communicate like an ordinary person. Everyone is very proud of her transformation. She managed to overcome her deficiency through hard work, a lot of practice, and prayers.

Since then, she has been developing an unique style either in canvas, wooden boards or in her pencil drawings.

Traditional folk music, long walks, being close to the nature and the beach, inspire her to create her fantasy world, where you are invited to dream and be enthralled by her characters Babu and his kitten Abu.
