Professional Experience and Curriculum Vitae

I'm a creative, collaborative producer of film and digital content with a degree in literature and an MA in Creative Writing.

I see every project as a great collaboration between myself and those I'm working with, with all of us pulling together towards our ultimate goal: creating something of which we can be proud.

I think the best way to collaborate is to have ambition for what we can all achieve and a vision of how we're going to get there.

I've now been involved in various projects of which I'm proud, including music videos, long and short documentaries, corporate films and animations.
