Professional Experience and Curriculum Vitae

I'm a female graphic designer working full-time in the Rep. of Ireland. I specialise in Graphic Design, Illustration and Web/Email Design. I also am an experienced usability and UI designer. I have been in the field for nearly 5 years, and have worked with some big named clients such as Canon, Shell and Dell.

I am self motivated, I spend my spare time experimenting with Design, Photography and Arts of all types – I can't resist it. As a computer based artist I am definitely not anchored to my Mac. I spend my spare time outdoors. In my opinion any excuse to be outside is a good one. I'm addicted to surfing.

I'm always open for new projects and challenges, so feel free to contact me.
