## Professional Experience and Curriculum Vitae

Celebrating life through her images has always been Manon Boyer's objective. Taking pictures while still a teen she discovers her passion for Photography. The 90's mark the beginning of her career in fashion. Her images are published in magazines and advertising campaigns. "My career evolves from contact to contact. I learn, perfect, change the way I see things. Traveling, meeting new challenges, new faces, new cultures and the will to always go further are allies to the style of my images. In photography themes change, styles change. You have to force yourself through the motion, inactivity has no place. I love, no! I adore my job!!! She travels freely from fashion editorial shoots to advertising campaigns. "My images have a lifestyle feel to them. Everyday life visited with a story, a style like in the movie's" Manon is based in Canada because she loves this country for the freedom it offers. She also mingles around the world and is always ready to pick up and go. Her recent travels have taken her to Karachi Pakistan, Bahrain and Dubai where her eyes feasted on exotic sceneries.
