Professional Experience and Curriculum Vitae

I am glad to introduce a network of international artists who can supply the creative community with unique artwork that displays a variety of techniques and styles combined with craftsmanship, original thinking and conceptual problem solving. Make use of this potential from conception to completion – it saves time and brings new ideas to your illustration projects.

Attending to an illustration project from the beginning till completion, translating (German, English, French and Italian) as well as handling administrative duties are part of my services.

I am looking forward to your phone call or your e-mail.

Yours, Margarethe Hubauer
