## Awards and Accolades

I am a moderately deranged Director & Animator working out of Stockholm, Sweden. Making music videos, commercials and narrative pieces. Most work includes animation in some way, but not always.

I just finished a half a year long "Crossmedia - from Storytelling to Distribution!" course and I will concentrate more on fictional storytelling in the future.

Currently I am also working on a "Hard Scifi" storyworld for an animated webseries and a comic.

I have directed musicvideos for the Endless, KVLR(2), Convoj, Nutmeg(2), Gopher and Psycho Sonic Cindy.

\* The Nutmeg video has been shown more than 85000 times on YouTube! - It was also featured on the YouTubes own startpage. - Just search for ohohoo - Many thanks to Caroline and RadarMusicVideos.
