## Professional Experience and Curriculum Vitae

I have always had a passion for Photography, Film Making, Music, the outdoors, and being active and social. I react and perform great when put under pressure or a deadline, producing equivalent results when faced with the opposite. I view my work as something that I am able to enjoy while striving to help co-workers feel the same. I believe that a true understanding of professionalism is demonstrated day-to-day through one's actions, and take pride in doing so.

I feel that I would be a great asset to any employer. Not only through my determination and self-motivation, but also because I view myself as a well rounded person that views negative situations with a positive and engaging outlook.
