Professional Experience and Curriculum Vitae

Matt grew up in the Endless Mountains of northeastern Pennsylvania. His resourcefulness in photography comes from his experiences growing up in Dushore, PA - the town that boasts the only traffic light in the county.

After leaving Sullivan County Matt spent four years in the military as a Marine corporal. He spent the next few years in technical jobs and then found his calling as a photographer after a snow boarding accident, which left him with down time to refocus. Matt studied photography at Antonelli Institute. Upon graduation he began fine tuning his skills while assisting other photographers in the Philadelphia area.

Matt currently freelances for a variety of his own clients, while continuing to work on his own fine art projects. His love for travel and adventure is a perfect match for his passion in photography.

Previous Clientele
Stir productions

Madison house Publicity
